Part I Program Introduction

1. Program Introduction

1) Program Description

Brief Introduction

Academic Education Programs sponsored by the Ministry of Commerce of People's Republic of China started from 2008. It is designed to foster high-end business officials and managerial personnel for the recipient countries, offering one-year and two-year master programs as well as three-year doctoral programs for the purpose of educating high-end and inter-disciplinary talent working in the applied fields of government, trade, foreign affairs, agriculture, technology, education, culture and health, building intellectual capacity and facilitating the economic and social development of the recipient countries. These programs provide assistance to governmental officials, research fellows, and senior managerial personnel on their master and doctor education in China, which are fully conducted in English. Admission requirements include a bachelor's degree, relevant working experiences, and decent physical conditions, essential for the high-compact curriculum needed for the degrees. The program plays an increasingly significant role in the economic development cooperation between China and students' home countries, and is highly valued by the government of students' home countries.

This program is open to fresh university graduates as well as the experienced nursing professionals from developing countries, and is designed to train those students in the field of nursing and medical technology, and subsequently improve the nursing practice and health care & management in those countries.

Central South University has started the 2-year master program sponsored by Ministry of Commerce since 2015. It specializes in master of nursing and taught in English.

Prospective Students

Our prospective students are mid-to-senior level officials or managers from the government, the media, NGOs, and other public sectors, who have demonstrated superior performance, both academically in their work.

Program Objective

This program is open to fresh university graduates as well as the experienced nursing professionals from developing countries, and is designed to train those students in the field of nursing and medical technology, and subsequently improve the nursing practice and health care & management in those countries.

Students are expected to complete the program full time over 2 years.

The program aims to

- Provide students with an opportunity to learn fundamental knowledge and concepts in nursing and medical technology, to obtain the capability to carry out nursing research

Academic Education Programs Sponsored by Ministry of Commerce PRC

in their countries through learning Medical Statistics, Nursing Research and Application of Medical statistical Software.

- Help students to develop critical and clinical thinking skill, to learn professional skills associated with research, and to identify and solve the problem in the transition between theory and practice.
- Help students to obtain the capability of health care management and leadership.

Enrollment Plan:

In 2024 we have planned to enroll up to 25 students in our master program with a concentration on nursing. The program duration is 2 years and the instruction language is English.

Financial Support
