Part One. Program Description

I. About the Program

1. Introduction of the Program

The Academic Education Programs sponsored by the Ministry of Commerce of the People's Republic of China in 2008 is designed to foster high-end business officials and managerial personnel for the recipient countries, offering one-year and two-year master programs as well as three-year doctoral programs for the purpose of educating high-end and inter-disciplinary talents working in the applied fields of government, trade, foreign affairs, agriculture, technology, education, culture and health, building intellectual capacity and facilitating the economic and social development of the recipient countries. These programs provide assistance to governmental officials, research fellows, and senior managerial personnel on their master and doctoral education in China, which are fully conducted in English. Admission requirements include a bachelor's degree, relevant work experience, and decent physical conditions, which are essential for the intense study needed for obtaining the degrees. These graduates are now working in their fields of specialization in their home countries and are undertaking an increasingly significant role in the economic development cooperation between China and their home countries.

In 2015, Shanghai National Accounting Institute started to offer the two-year "Master of Professional Accounting Program" with the support of the Ministry of Commerce of People's Republic of China. So far 218 government officials, scholars and managerial personnel from 34 developing countries have joined the program.

In view of the positive effects and good results brought by these programs in strengthening economic ties and friendship between China and the recipient countries, the Ministry of Commerce of the People's Republic of China will continuously intensify its efforts in improving the quality of education. We believe that by participating in the program and obtaining the degree, you will be able to acquire professional knowledge and expertise, thereby realizing your life value and purpose and in the meantime contributing to the social and economic development of your own countries.

2. Prospective Students

Government officials, managerial personnel from state-owned enterprises as well as researchers or university lecturers from developing countries

Academic Education Programs Sponsored by Ministry of Commerce PRC

with bachelor's degree or above in the field of economics, management etc. Applicants with government work experience or policy making experience are preferred.

3. Program Objective

The Program is designed to train experienced, application-oriented and high-caliber talents in the field of accounting, finance and management to be financial managers, researcher or policy-makers with profound expertise and strong analytical and decision making ability.

4. Enrollment Plan

We plan to enroll a maximum of 30 students in our two-year full-time Master of Professional Accounting Program.

5. Financial Aid

The Chinese Ministry of Commerce will provide "Chinese Government Scholarships" to admitted students from developing countries. The scholarship recipient is entitled to:

- tuition waiver.
- teaching material fee waiver.
- field study fee waiver.
- dissertation guidance fee waiver.
- one-off resettlement fee of 3000 RMB.
- free on-campus accommodation.
- stipend: 36000 RMB per year per master student.
- Free medical insurance for international students.
- One-time round-trip international airfare (First time fly to China after enrollment, and Fly back to home country upon graduation), and one round-trip airfare for home visit.
- The annual review is compulsory for all students. Those who pass the review may continue enjoy full scholarships in the next year.
- Other expenses shall be managed and used by the Ministry of Commerce or the universities as a whole, and shall not be distributed to students. The Ministry of Commerce only provides students with financial assistance within their enrolled

academic duration. Students who postpone their graduation will not receive the continuing sponsorship.

II. Introduction of the Institute

1. About SNAI

The Shanghai National Accounting Institute (SNAI) was officially established in September 2000 with the strong support of the Chinese government. It is a public institution affiliated to the Ministry of Finance of China (MOF). Over the past 20 years, SNAI has sought to find pedagogy proper for senior financial and accounting professionals, cultivate high-end talents for the accounting sector and provide advanced continuing education for macroeconomic regulators, large-and-medium-sized SOEs, financial institutions and intermediaries. Today, SNAI has created its own unique teaching methodology underpinned by the three pillars of degree education, executive development program and distance education. Since 2011, SNAI has been approved by the Academic Degrees Committee of the State Council as the institute for conferring Master's degrees in Professional Accounting, Auditing, Tax and Finance. Looking forward, SNAI will continue to make unremitting efforts to build it into a leading accounting institute with international recognition, which constitutes the realization of four sub-goals as being a highland in bringing up top accounting talents in China, a think tank for national accounting policymaking and corporate finance, a nationwide knowledge and information hub on accounting, and an international platform for communication and exchange in accounting.

2. About AFDI

The Asia-Pacific Finance and Development Institute (AFDI) which is co-located at SNAI, was initiated by the Chinese Central Government for capacity building under the APEC framework. Since the establishment in 2001, cooperating with international organizations such as the Asian Development Bank, World Bank, New Development Bank, UNIDO, ACCA, etc., AFDI has conducted various capacity building trainings, seminars, forums and research on regional financial and development issues. To promote South-South cooperation and capacity building in the fields of finance and development for developing countries, in 2015, AFDI launched the “Master of Professional Accounting Program”, which aims to provide professional master’s degree education to the young and mid-aged finance and economic officials from developing countries in the world.

3. Environment and Facilities

Academic Education Programs Sponsored by Ministry of Commerce PRC

With a humid subtropical monsoon climate, Shanghai has a very pleasant climate with four distinct seasons. Shanghai enjoys abundant sunshine and rainfall throughout the year. The spring and autumn in Shanghai are relatively short with longer summer and winter. More than 60% of the rainfall in the whole year concentrated in the flood season from May to September. The hottest seasons are from July to August with more than 10 days above 35 °C per year. The coldest seasons are from late December to the end of February.

SNAI campus covers an area of 34.67 hectares and a floor area of 87,000 square meters. Its geographical location also is favorable, being adjacent to Shanghai Hongqiao International Airport and National Exhibition and Convention Center. The park-like campus is equipped with first-class teaching and learning facilities, common kitchen, as well as single room accommodations with private bathroom, 24-hour air conditioning, hot water and internet connection for the international students during their schooling. The food price at SNAI is around 23-35 RMB per day.

Academic Education Programs Sponsored by Ministry of Commerce PRC

from University of Toronto, Canada. Her main research fields are macroeconomics, search theory, labor market and Chinese economy, and her main research results have been published in many authoritative economic journals at home and abroad. She has presided over and participated in six National Natural Science Foundation projects, served as a review expert of National Natural Science Foundation, served as an anonymous reviewer of several international authoritative journals (SSCI).

4. Featured Course

Focusing on the themes of "Understanding of Chinese Government and Financial Policies", "Development and Innovation of Chinese Enterprises", "Rural Revitalization and Industrial Development of China", and "Learning of Chinese Culture and History", the field study on "China's Reform and Development" will be arranged for students to visit relevant Chinese government agencies, business enterprises, industrial clusters and cultural landmarks, to learn about China's success and lessons in social and economic development.

5. Program Mode

The language of instruction is English. Classes will incorporate a mix of lectures, seminars, field visits and so on.

6. Program Semesters

The program lasts for two years and is divided into four semesters. While the first three semesters focus on course learning, including a one-week long field study in each semester, and the last one focuses on thesis writing. The program schedule is as follows:

The First Academic Year	The 1 st semester	Sept. 2024- Jan. 2025	Registration in Sept.
	Winter vacation	Jan. - Feb. 2025	Winter vacation
	The 2 nd semester	Mar. -Jul. 2025	
The Second Academic Year	Summer vacation	Jul. - Aug. 2025	Summer vacation
	The 3 rd semester	Sept. 2025 - Jan. 2026	
	Winter vacation	Jan. - Feb. 2026	Winter vacation
	The 4 th semester	Mar. - Jul. 2026	Graduation in July

7. Degree Thesis

1) General Requirements of Degree Thesis

Students are expected to bring specific research topics concerning

accounting or financial management to the program, as a part of thesis research preparation. They will write a thesis on a special topic independently under the guidance of their supervisors using the theory and practice of accounting and related disciplines. In some special cases, it could also be research report, or case analysis report with high standards. The thesis should be written in English with no less than 15,000 words.

2) Degree Thesis Defense

Degree thesis defense takes place in SNAI. A committee for Degree Thesis Defense shall comprise three to five experts with equivalent qualifications in the subject or relevant subjects, including one or two external experts who are from practitioner organizations and have senior professional and technical titles.

8. Degree Requirements

Students are required to successfully complete a minimum of 41 credits of course work, a master thesis and thesis defense within the required period. After meeting the above requirements and receiving the approval of SNAI Academic Degree Evaluation Committee, the Master Degree of Professional Accounting will be awarded.

Part Two. Application

I. Requirement

All applicants must meet the following entrance requirements:

1. Applicants must be non-Chinese citizens under 45 years old (born after September 1, 1979).
2. Applicants are required to have a valid passport, abide by the laws and decrees of the People's Republic of China as well as the rules and regulations of Shanghai National Accounting Institute, and respect the Chinese manners and customs.
3. Applicants must have attained a Bachelor's degree or above.
4. Applicants are required to have a strong English proficiency that would enable them to attend the courses taught in English. (suggested standard: IELTS score above 6.0 or TOEFL IBT score above 80)
5. All applicants shall be in good physical conditions and carry no infectious diseases which may have a serious impact on public

health or fall into any of the health situations prohibited by China's Entry-Exit Inspection and Quarantine Laws and Regulations and able to submit the physical examination form issued by the local public hospital. The applicants with severe physical disability, hypertension, cardiovascular and cerebrovascular diseases, diabetes, cancer and other serious chronic diseases, mental diseases or infectious diseases that may cause serious public health hazards and those who are under the recovery of major surgical treatment and during acute exacerbation or pregnancy are not suggested to apply for the program. If the students are pregnant during the study in China, they will be expelled from the university according to the relevant regulations.

6. Applicants whose study or work experience relevant to the program are preferred.
7. Applicants should be mid-to-senior level government officials, senior managers at public institutions and enterprises, academicians at universities and research institutions.
8. Applicants should have potential for career development in their own fields and are willing to promote the communication and cooperation between China and their home countries.
